

ScreenHunter 7 Free, Plus & Pro

© 2017 Wisdom Software Inc. All rights reserved.

ScreenHunter 7 is your brand new solution to all-in-one image capture and video recording.

The old ScreenHunter 6 has been completely remodeled with major upgrades such as combining an enhanced version of AutoScreenRecorder 3's video recording feature for high quality recording in Windows 7, 8 and 10.

With ScreenHunter 7 Pro, you can control what you see with the most powerful screen capture and automated video recording tool. Never lose what you see with the most exciting ScreenHunter yet!

KEY FEATURES

Most powerful on the market

It supports full screen capture up to 8K resolution (7680×4320) for multiple monitors and records 4K videos for a single monitor. It supports frame rate up to 100 fps.

High quality & productivity

Using DirectX lets ScreenHunter 7 produce professional grade videos and images. A perfect tool for recording movies and courses online.

Capture covered windows

It captures and records windows covered by another window or even minimized windows. Optimal for automatic or scheduled captures and recording.

Capture while recording

Capture what you see as an image even whilst recording.

Flexible webcam support

You can show your webcam anywhere at any given time, so you can integrate it into your recording the way you want.

Easy-to-use interface

All the features are visible in 4 easy-to-use tabs, so everyone from beginners to pros can use ScreenHunter 7.

MotionStudio 4

© 2013 Wisdom Software Inc. All rights reserved.

An easy-to-use authoring tool to create interactive animation EXE.

MotionStudio 4 is an easy-to-use, all-in-one multimedia authoring tool. It combines image, sound, interactivity and animation for you to create stand-alone executable files. It is an ideal solution for creating your slide shows, interactive and animated stories, educational materials or just "pictures to EXE" for your auto-run CD-ROM.

With **MotionStudio 4**, you can create scalable, vector-based drawing objects as well as adding photos and pictures. With an array of time-saving productivity tools, adding interactive actions and animation is easy.

KEY FEATURES

Easy to use, create exactly what you want royalty-free, stand-alone interactive EXE

MotionStudio combines drawing, painting and animation in one program to save your time and get your job done fast.

High productivity, time saving animation features

MotionStudio offers 64 built-in object animation combinations, and a freehand animation to draw any animation path. With 48 built-in visual effects, including fade and dissolve, it's just a few clicks, your animation is done. You can create your own library of objects and reuse them in any other MotionStudio file just drag & drop. Background is a new layer to be used to appear in all frames.

High quality

All drawing objects can be translucent, and all images can have true transparency or adjustable opacity to blend in.

Affordable

At \$39.95 US, MotionStudio offers high price-performance value compared to other comparable products in the industry.

Drag the mouse in the main window to add an object.

MotionGIF 4

© 2013 Wisdom Software Inc. All rights reserved.

An all-in-one, easy and feature-rich GIF animator for Web animation!

MotionGIF 4 is an all-in-one, user-friendly and feature-rich software to create great looking animated GIF files. It offers a very easy way to quickly create GIF animation for your Web pages.

With **MotionGIF 4**, you can create scalable, vector-based drawing objects as well as adding photos and pictures. With an array of time-saving productivity tools, animation creation is just a few clicks away.

By drag & drop images from your hard drive or from the Internet, with your choice of adding animation transition, your animated GIF will be created in no time.

KEY FEATURES

Easy to use, create fast GIF animation

MotionGIF combines drawing, painting and animation in one easy-to-use program to save your time and get your job done with a minimum cost.

High productivity & animation features

With 48 built-in visual effects, including fade and dissolve, it's just a few clicks, your animation is done. GIF transparent color is also supported!

You can create your own library of objects and reuse them in any other MotionGIF file just drag & drop. Background is a new layer to be used to appear in all frames.
